Heather Neil
Chief Executive Officer
RSPCA Australia

*Please see page two for conditions of approval

RSPCA APPROVED FARMING SCHEME

NOTES

Approval is granted under the RSPCA Approved Farming Scheme when some or all of a producer's products are produced according to the environmental, husbandry and administrative requirements of the Scheme, as detailed in the Standards for the *RSPCA Approved Farming Standards – Meat Chickens* and the *RSPCA Approved Farming Scheme Operations Manual*. However, only those products produced in accordance with the Standards are regarded as "Approved Products".

Non-compliance with the requirements of the Scheme may result in suspension or cancellation of this Certificate of Approval.

Granting of approval does not give the Approved Producer the right to use the RSPCA Australia Trademarks. Approved Producers wishing to market Approved Products under the Trademarks can only do so on entering into a Trademark License Agreement.
